## Commenting on the fourth quarter, Tex Gunning, CEO said:

'The building blocks of TNT's Outlook strategy have been put in place. We are investing in our people, processes, IT systems and institutional competencies, whilst facing stiff competition and adverse trading conditions, particularly in Western Europe. Our focus on small and medium enterprises is gaining traction and we are making progress in service reliability measured by ontime performance. The results of TNT's customer experience survey were the highest in years.

Comprehensive productivity and efficiency plans have been developed and are in full execution mode. The strengthening of TNT's European road and air networks, to deliver both express and economy express services to more destinations, is also progressing well.

In 2014, we had to take significant Outlook-related restructuring provisions, one-off charges and valuation allowances. These non-recurring charges testify to the scale of the transformation that needs to happen and to the determination of the new management team to do what it takes to transform and turn TNT around. In 2014, we did not yet realise quality revenue growth and profitability. We are still in a stage of improving the quality of our revenue base and winning back customers that were lost over the last few years. With service quality improving in our unique European road network and competitive air network, we should be able to reverse any negative trends and achieve profitable growth.

The Outlook strategy was announced in 2014. A new management team of experienced industry leaders and corporate turnaround professionals was appointed with a clear brief to create a sustainable future for TNT. Our confidence in realising the full benefits of Outlook by 2018-19 is based on the Orange spirit of TNT's people, the loyalty of TNT's customers and our unique European network with excellent connections to the rest of the world. 2015 will be a year of transition and we will achieve year on year improvements from 2016 onwards.

We are very much looking forward to updating the market fully at our Capital Markets Day tomorrow.'

## 2015 guidance

- For 2015, TNT expects a continuation of adverse trading conditions, particularly in Western Europe
- TNT expects 2015 to be a challenging year of transition marked by the progressive ramp-up of new and upgraded facilities and other transformation projects, such as the outsourcing of IT
- TNT anticipates restructuring charges between €10m and €15m in 1Q15

## **Assumptions underlying Outlook execution**

- Revenue growth at a minimum in line with GDP growth from 2016 onwards
- The plans assume no major adverse economic developments going forward

## Outlook agenda and guidance for 2018-2019

- Adjusted operating income margin % guidance per segment for 2018/19:
  - International segments: 8-10%
  - Domestics: 4-5%
  - Unallocated: ~(0.5)% (of group revenue)
- €800-900m of CAPEX investments during 2015-2017 period
- €250m of cost reductions to be realised by 2018 (vs. baseline 2014), achieving a net cost reduction of €125m by 2018
- €250-300m planned restructuring charges for 2015-2017
- Manage positive net cash position
- Maintain current dividend policy: TNT aims to pay a dividend of around 40% of normalised net income

#### Full year performance commentary

In 2014, TNT's revenues decreased by 3.2% to €6,680m. On a like-for-like basis, revenues rose 1.8%, after adjusting for foreign exchange and the sale of China Domestic and TNT Fashion. The operating income absorbed net one-off charges of €295m. Adjusted operating income rose 20.1% to €209m.

In International Europe, the results were affected by continued pressure on sales prices and investments in future growth. International AMEA performed better than last year: The segment doubled its adjusted operating income to €51m. The Domestics segment saw further improvements in the performance of Italy and Brazil, partly offset by negative price effects in other domestic markets.

- Modest reported revenue growth (0.8%), masking strong disparities between countries and regions; comparable revenue growth (adjusted for foreign exchange) was 1.1% in 4Q
- Revenue development affected by overall pricing pressures, the situation in Russia, and lower revenues from UK International and France International
- Decline in adjusted operating income attributable to the brand re-launch (€13m out of the total group investment of €22m), investments in improved service coverage and future growth, impact of Belgian national strikes on air hub operations in Liege
- Growing revenues from SMEs, supported by investments in sales resources

#### New reporting segmentation

Prior to 4Q14, TNT operated its business through five reportable segments: 1) Europe Main; 2) Europe Other & Americas; 3) Pacific; 4) AMEA; and 5) Unallocated.

TNT has created a new reporting structure consisting of four reporting segments: 1) International Europe; 2) International AMEA; 3) Domestics; and 4) Unallocated. This change is integral to TNT's Outlook strategy to create focused and accountable units, with a clearer line of sight on the distinct domestic and international businesses.

The International Europe reporting segment is centrally led with integrated responsibility across Europe.

The International Asia, Middle East, Africa reporting segment is managed separately but operates in close cooperation with International Europe.

The Domestics reportable segment includes the domestic operations in France, Italy and the United Kingdom, as well as Brazil, Chile, Australia and New Zealand. The domestic entity creates a dedicated focus on domestic operations, whilst keeping the synergies with the international activities.

The Unallocated segment continues to consist of Other Networks (TNT Innight), Central Networks, IT, GBS (Global Business Services) and the TNT Head Office.

In 2013, Brazil Domestic was reported as a discontinued operation, following the announcement that the unit would be sold. On 30 January 2014, TNT announced that it would retain Brazil Domestic. Therefore, as of 2014, Brazil Domestic is no longer reported as a discontinued operation but is incorporated in the Domestics reporting segment.

The four tables below show a reconciliation of the previous segmental revenues and operating income into the revenues and operating income for the full year and the fourth quarter.

#### Cash generating units (CGUs)

Following IFRS requirements, the revised organisational structure triggered a goodwill impairment test based on the revised CGUs. The CGUs for goodwill impairment testing purposes have changed into Germany, France Domestic, Nordics, Eastern Europe, South East Europe & Turkey, Spain, Portugal, Austria, Chile, the Pacific and AMEA. The relevant goodwill was re-allocated to the new CGUs based on the relative value of the CGUs which were part of the former CGUs.

As a result of the goodwill impairment test, it was concluded that an amount of €32m of goodwill allocated to CGU Spain was impaired. The annual goodwill impairment test did not result in additional impairment charges.

## Changes in accounting policies and disclosures

In Brazil, the social integration (Programa de Integração Social [PIS]) and the social contribution on billing (Contribuição para o Financiamento da Seguridade Social [COFINS]) programmes levy taxes, which are highly regulated and represent a significant share of the overall Brazilian tax collection.

PIS is conceived as a means to share the business profits with employees, through a mandatory national savings programme, financed by monthly deposits collected as a percentage on the gross sales. COFINS was created to finance special social programmes enforced by the Federal Government through the collection of a social contribution as a percentage of revenues.

Previously, in the absence of clear guidance under IFRS, TNT accounted for these taxes as taxes on profit since and although the tax is levied as a percentage of revenues, certain cost credits are to be taken into account to arrive at the taxes due.

However it is now more customary to account for the PIS/COFINS taxes as an adjustment of revenue and affected cost. As a result, TNT has decided to change its accounting for the PIS/COFINS. This change will result in the financial statements providing more reliable and relevant information about the effects of its financial performance.

For the full year 2014, this change resulted in €33m lower revenues (including €11m in 4Q) and €17m lower reported operating income (of which €5m in 4Q), but had no impact on net income.

Comparative figures have been restated to reflect this change in accounting policy.

#### WARNING ABOUT FORWARD-LOOKING STATEMENTS

Some statements in this press release are "forward-looking statements". By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. These forward-looking statements involve known and unknown risks, uncertainties and other factors that are outside of our control and impossible to predict and may cause actual results to differ materially from any future results expressed or implied. These forward-looking statements are based on current expectations, estimates, forecasts, analyses and projections about the industries in which we operate and management's beliefs and assumptions about future events. You are cautioned not to put undue reliance on these forward-looking statements, which only speak as of the date of this press release and are neither predictions nor guarantees of future events or circumstances. We do not undertake any obligation to release publicly any revisions to these forward-looking statements to reflect events or circumstances after the date of this press release or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.
